CURTIN UNIVERSITY OF TECHNOLOGY
Department of Mathematics and Statistics

CURTIN MATHEMATICS SCHOLARSHIP 2009

1. An applicant must
 - be an Australian citizen or Australian Permanent Resident; and
 - be a TEE applicant;
 - indicate, as first preference, a degree course of Bachelor of Science offered by the Department of Maths & Stats, including
 - Bachelor of Science (Actuarial Science)
 - Bachelor of Science (Mathematical Sciences Major)
 - Bachelor of Science (Industrial Modelling and Optimisation Major)
 - Bachelor of Science (Actuarial and Applied Statistics Major)
 - Bachelor of Science (Applied Statistics Major)
 - Bachelor of Science (Mathematical Sciences and Computing Major)
 - Bachelor of Science (Mathematical Sciences and Finance Major)
 - Bachelor of Science(Mathematical Sciences) & Bachelor of Education (Secondary Education)
 - Bachelor of Science (Mathematical Sciences) & Bachelor of Commerce (Finance)
 - be accepted into the course as a full time student.
2. Applications should reach the Department of Mathematics and Statistics, Curtin University of Technology, GPO Box U1987, Perth 6845, Western Australia by 10 February 2009.
3. The selection criteria will be a combination of academic merit and the quality of the application.
4. A short list of applicants will be interviewed by a selection panel comprised of:
 - the Head, Department of Mathematics & Statistics or his nominee
 - two other members to be nominated by the Head of Department.

To ensure a gender balance, the Head of Department may nominate a fourth person to the committee. The decision of the selection panel is final.
5. Up to three scholarships will be offered each year. The number of scholarship for each major/course should not exceed one.
6. Each scholarship is automatically renewed on a yearly basis provided the student:
 - (a) has passed all units in each semester with an SWA in excess of 75% for both semester; and
 - (b) remains in the course full time.
7. If a student does not meet the conditions in (point) 6, the scholarship may be suspended and reviewed by the Department of Mathematics & Statistics.
8. On successful completion of the requirement for the BSc degree, and based on excellence in academic performance, the scholarship may be extended a further year to allow the student to complete an extra year for the BSc (Honours) if applicable.
9. Each scholarship will be worth up to \$1,500 per semester.
10. The scholarship lapses if the student concerned cannot take up full time studies for the year the scholarship is awarded.
